Software update

### What's new

Find out what's included in this update.

**Wi-Fi**

- If quality information on nearby Wi-Fi routers can be measured, this information will appear as Very Fast, Fast, Normal, or Slow.
- \* This feature can be turned on or off in "Network Quality Information Display" settings.
- When attempting to access a Wi-Fi router with a password, a newly added feature now allows the user to request the password of the Wi-Fi router from someone nearby who is saved in their contact list and has already connected to that router.
- \* The "Request Password" button will appear on the Wi-Fi password input screen when you can request a password.

**Always On Display**

- Bitmoji Stickers are supported on Always On Display. (Clock style)

**Samsung keyboard**

- A new feature has been added to the keyboard search feature that allows the user to search YouTube.
- Split Keyboard is supported on Landscape mode.
- The search function of the "Manage Input Languages" screen in the Keyboard Settings page has been newly updated to make it easy to find keyboard input languages that the user wishes to add or delete.

**Camera**

- Improved the quality and stability of the camera.

**Messages**

- A feature has been added that allows the user to call a person who is saved as a pre-configured SOS message contact.
- A feature has been added that allows the user to send SOS location-sharing messages every 30 minutes for 24 hours.

The security of your device has been improved.

A software update can include, but is not limited to:

- Device stability improvements, bug fixes.
- New and / or enhanced features.
- Further improvements to performance.

To get the best from your device, please keep your device up to date and regularly check for software updates.

Samsung Galaxy A71 has reportedly started receiving the One UI 2.5 update in several countries. The update brings a host of improvements and fixes along with the latest October 2020 security patch. The Galaxy A71 was launched in December last year with One UI 2.0. Back in July, the smartphone was updated to One UI 2.1 that brought in several new camera features. Now, the Galaxy A71 has been updated with the latest Samsung skin, based on Android 10.Samsung Galaxy A71 One UI 2.5 update changelogAccording to a screenshot of the changelog shared by SamMobile, the One UI 2.5 update carries firmware version number A715FXXU3AT18 and a hefty size of 1014.82MB.With the new update, Wi-Fi quality information will now be shown to users as Very Fast, Fast, Normal, or Slow, if quality information on nearby routers can be measured. Users can also request the password for a Wi-Fi router from another nearby user who is saved on their contact lists and has already connected to the same router.The Samsung keyboard also gets several new features, including support for split keyboard on Landscape mode. Users can also directly search on YouTube from the keyboard. Upgrades in messages include a new feature that allows a user to share SOS location every 30 minutes for 24 hours.The camera's quality and stability has been improved with the new update. Additionally, Bitmoji stickers will now be supported on Always On Display (Clock style). The latest update brings with it the October 2020 security patch as well.Samsung Galaxy A71 One UI 2.5 changelog detailsPhoto Credit: SamMobileHow to get One UI 2.5 update on Samsung Galaxy A71To check if the update is available on your Samsung Galaxy A71, you can go to Settings > Software update > Download and install. Otherwise, you can simply wait for a notification to pop up for the same.While the SamMobile report says that the update has started rolling out to several countries around the world, region-specific details weren't shared.Is this the end of the Samsung Galaxy Note series as we know it? We discussed this on Orbital, our weekly technology podcast, which you can subscribe to via Apple Podcasts, Google Podcasts, or RSS, download the episode, or just hit the play button below.Affiliate links may be automatically generated - see our ethics statement for details. Samsung has kept itself busy with new product launches and software rollout. And this week, the company has offered the latest One UI 2.5 version for Galaxy A71 users. The release is happening in phased manner and should be available in most countries in the coming week or two. One UI 2.5 is the latest version of Samsung's customised interface. It is still based on Android 10 version but either ways, you are getting new features with this update. Also Read - Google is upgrading text-to-speech voice for Android app: Here's what's changing In addition to features, Galaxy A71 also receives October 2020 security patch. The update gets a size of over 1GB and the version number is A715FXXU3AT18. The update alert should reach millions of users very soon. Having said that, you can also manually head over to Settings and Software update section on the phone to see if you have got it already. Also Read - Google releases new voices for Android apps by updating its text-to-speech engine One UI 2.5 brings a slew of new features to the Galaxy A71 like SOS location sharing for Messages. It also includes improvements to camera app, Samsung keyboard and Wi-Fi. Samsung announced a while ago that it will offer three years of platform upgrades to the Galaxy A series along with the S, Note and Z series devices. Hence, the Galaxy A71 is expected to get three more Android upgrades over its life cycle. Also Read - Search On 2022: Top features coming to Google Search Samsung Galaxy A71 price and specifications Samsung Galaxy A71 in India got a price cut of Rs 2,000 in India few weeks back. The phone launched for around Rs 29,999 and with a Rs 2,000 price cut, it is now selling for Rs 27,999. The phone made its debut in December 2019. It flaunts a 6.7-inch Full HD+ Super AMOLED screen with a Qualcomm Snapdragon 730 SoC. The smartphone also has a quad rear-camera setup with a 64-megapixel primary sensor and f/2.0 aperture. On the front, the Galaxy A71 sports a 32-megapixel camera for selfies and videos. Samsung déploie actuellement la mise à jour One UI 2.5 sur le smartphone Galaxy A71 de milieu de gamme. Selon Sammobile, la dernière mise à jour OTA est déployée dans plusieurs pays d'Europe, d'Asie et du Moyen-Orient. La société a présenté One UI 2.5 basé sur Android 10 avec le lancement de la série Galaxy Note 20 en août de cette année. La mise à jour One UI 2.5 pour le Galaxy A71 porte le numéro de build A715FXXU3AT18 et a une taille de 1 Go. Il comprend également le correctif de sécurité Android d'octobre 2020. Le Galaxy A71 recevra une foule de nouvelles fonctionnalités qui font partie de la mise à jour One UI 2.5. Samsung déploie la mise à jour One UI 2.5 sur le Galaxy A71 La société ajoute la prise en charge des autocollants Bitmoji sur Always On Display. Si vous utilisez toujours l'application Samsung Keyboard par défaut, la nouvelle mise à jour vous permettra de rechercher Youtube directement avec la fonction de recherche du clavier. Samsung ajoute également une fonctionnalité de clavier partagé en mode paysage. Selon le journal des modifications, cette mise à jour apporte également des améliorations de qualité et de stabilité à la caméra. Dans le département de la connectivité, l'appareil bénéficiera de fonctionnalités intelligentes. Les appareils fonctionnant sur One UI 2.5 afficheront la vitesse des routeurs Wi-Fi à proximité. Ils seront classés comme Très rapide, Rapide, Normal ou Lent. Les utilisateurs peuvent également demander un mot de passe Wi-Fi à des contacts proches à l'aide de smartphones Galaxy. L'option « Demander un mot de passe » apparaîtra lors de la saisie du mot de passe pour la connexion Wi-Fi choisie. Pour l'application de messagerie par défaut, Samsung propose quelques options liées à SOS. Il contient également le dernier correctif de sécurité Android d'octobre Tout d'abord, l'application mise à jour permettra aux utilisateurs de partager des messages de partage de localisation SOS toutes les 30 minutes pendant 24 heures avec des contacts d'urgence présélectionnés. Une autre fonctionnalité nouvellement ajoutée affichera une option pour appeler l'un de ces contacts d'urgence. Étant donné qu'il est déployé auprès des utilisateurs du Galaxy A71 dans le monde entier, il faudra peut-être quelques jours de plus pour qu'il s'affiche sur tous les appareils éligibles. Pendant ce temps, les utilisateurs intéressés peuvent également vérifier manuellement la dernière mise à jour en accédant à Paramètres > Mise à jour logicielle > Télécharger. S'il y a une invite pour cette nouvelle mise à jour, appuyez sur le bouton « Installer maintenant » pour la télécharger et l'installer. Pour les smartphones Galaxy A, la nouvelle mise à jour One UI 3.0 basée sur Android 11 devrait être disponible au début de l'année prochaine. L'appareil a été lancé avec Android 10 One UI 2.0 prêt à l'emploi. Conformément à la politique de mise à jour actualisée de l'entreprise, le Galaxy A71 est également éligible pour recevoir jusqu'à trois ans de mises à jour logicielles. Samsung is now rolling out the One UI 2.5 update to the mid-range Galaxy A71 smartphone. According to Sammobile, the latest OTA update is rolling out in several countries across Europe, Asia, and the Middle East. The company introduced Android 10-based One UI 2.5 with the Galaxy Note 20 series launch in August this year.The One UI 2.5 update for the Galaxy A71 carries the build number A715FXXU3AT18 and comes in at 1GB size. It also includes October 2020 Android security patch. The Galaxy A71 will be receiving a host of new features that are part of the One UI 2.5 update.Samsung rolling out One UI 2.5 update to the Galaxy A71The company is adding the support for Bitmoji stickers on the Always On Display. If you are still using the default Samsung Keyboard app, the new update will let you search Youtube directly with the keyboard search feature. Samsung is also adding a split keyboard feature in the landscape mode.As per the changelog, this update also brings quality and stability improvements to the camera. In the connectivity department, the device will be getting some smart features. The devices running on One UI 2.5 will display the speed of the nearby Wi-Fi routers. They will be categorized as Very Fast, Fast, Normal, or Slow.Users can also request Wi-Fi password from nearby contacts using Galaxy smartphones. The "Request Password" option will appear when entering the password for the chosen Wi-Fi connection. For the default messages app, Samsung is bringing a couple of SOS-related options.It also carries the latest October Android security patchFirst off, the updated app will allow users to share SOS location-sharing messages every 30 minutes for 24 hours to pre-selected emergency contacts. Another newly added feature will show an option to call any of those emergency contacts. Since it is rolling out to Galaxy A71 users globally, it might take a few more days to show up on all the eligible devices.Meanwhile, interested users can also manually check for the latest update by going to Settings > Software update > Download. If there is a prompt for this new update, tap on the "Install now" button to download and install it. For the Galaxy A smartphones, the newly released One UI 3.0 update based on Android 11 is expected to be available by early next year.The device was launched with android 10-based One UI 2.0 out of the box. As per the company's refreshed update policy, the Galaxy A71 is also eligible to receive up to three years of software updates.
